THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

National Intelligence Officers

NIC #9639-82

29 November 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : Stanley M. Moskowitz  
National Intelligence Officer for USSR-EE

SUBJECT : NSSD 11-82

1. Attached is the latest, and probably final version of the IG Study of the USSR and NSSD 11-82, US Relations with the USSR.
2. State Department hopes to get telephonic concurrence from the SIG principals and avoid a SIG meeting.
3. You may want to read the entire NSSD--the first eight pages of the attachment. It sets out a muscular, hard-edged policy toward the USSR. Of special note, because it is stated explicitly, is that one major purpose of US policy is to promote change in the USSR. This makes sense but such a policy will have to be implemented astutely if it is to be sustainable over time.
4. There were no major problems with the NSSD or the IG Study at the last IG meeting. Defense is particularly pleased with the papers. Only Agriculture has misgivings; about the reference to a trade boycott (p. 3, para. 2 of NSSD), and reference to grain embargoes in the bowels of the study. The Secretary of Agriculture will have to make his case at the NSC.
5. SOVA drafted Part I of the IG Study, pp. 3-21.
6. I recommend that you concur in the NSSD-11 draft.

  
Stanley M. Moskowitz
